Our group will be working alongside Compass Rose Events to make this a special day for Amazon.com - TPA1. Compass Rose Events works with hundreds of groups a year and over 95% of the groups can't wait for this opportunity again.

The event managers on site will explain everything and guide our group. Most of this work will be physical and there will be some heavy or awkward equipment. The onsite event managers are trained in facilitating a safe and efficient environment for the volunteers. Safety and professionalism are extremely important to Compass Rose Events and they successfully deliver events with volunteer groups regularly.
